

F1b Equal prompts, unequal token shares

F2c Local held-out KL decrease

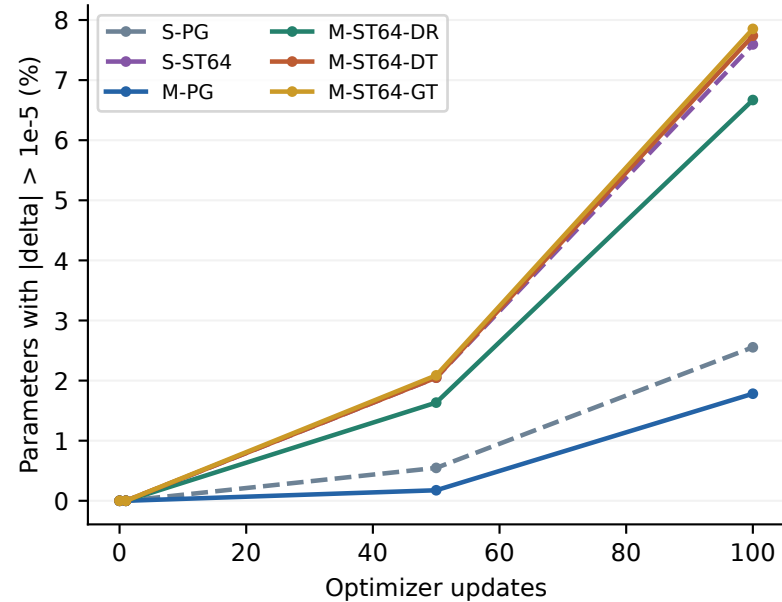

F8b (partial) M-PG capability

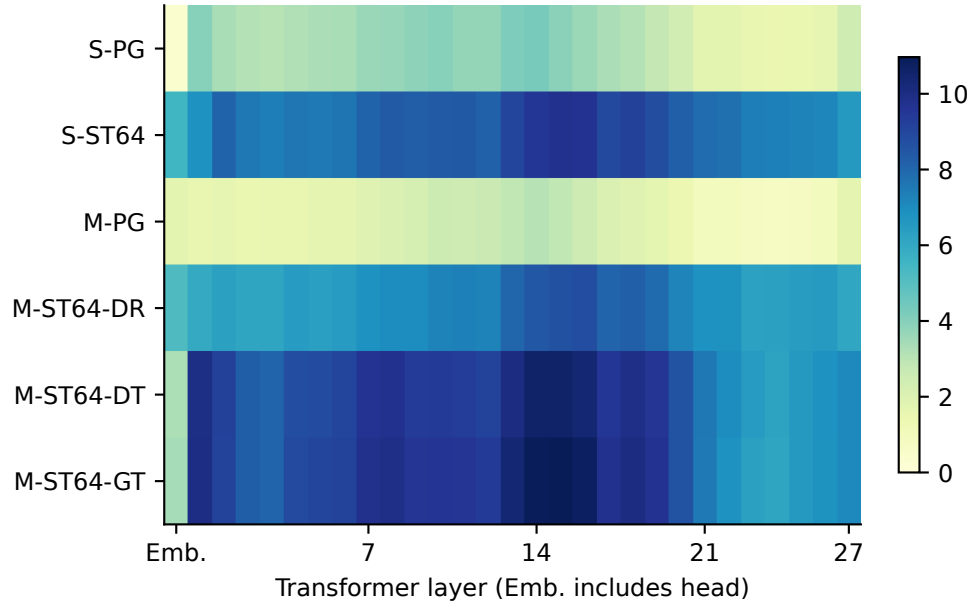

Exploratory evidence | PG / student-support Top64 checkpoints | Single / multi domain exposure differs | Local probe: cap 128, 2 prefixes/response

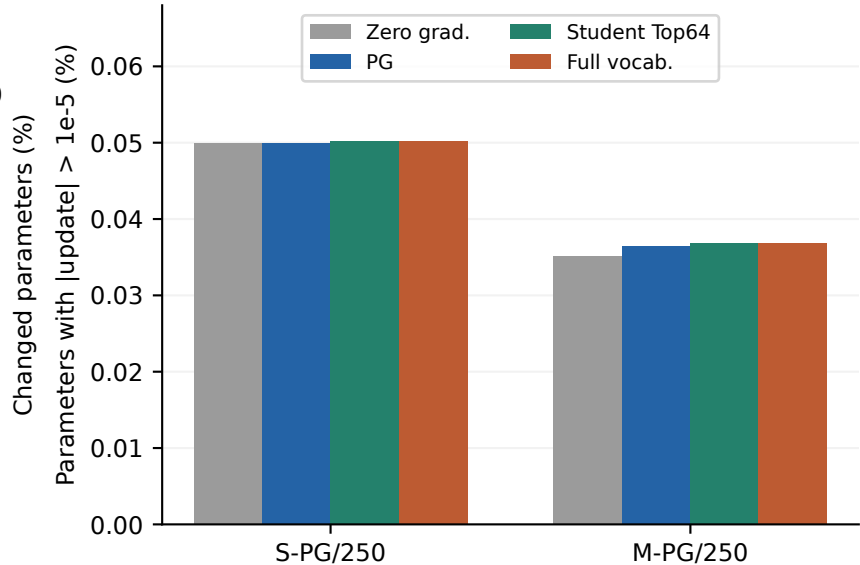

F4a (partial) Cumulative BF16 changes

F4c (partial) Layer concentration at 100

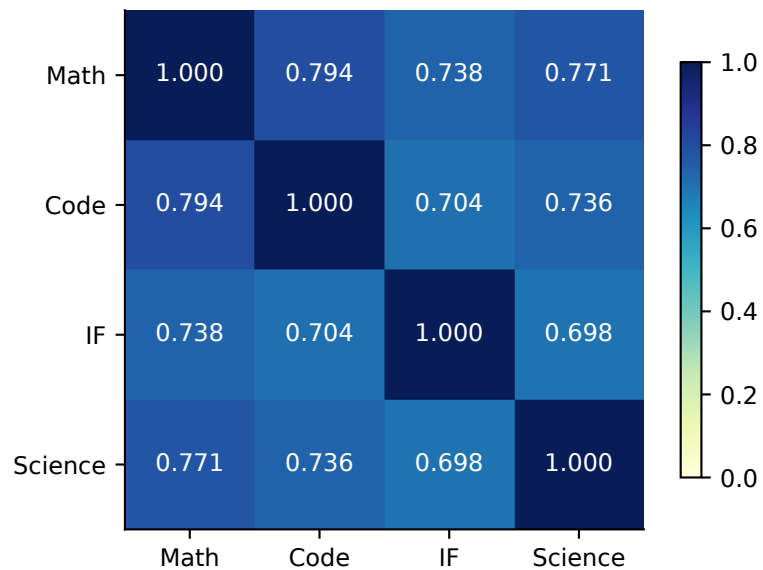

F7a (partial) Local BF16 writeback

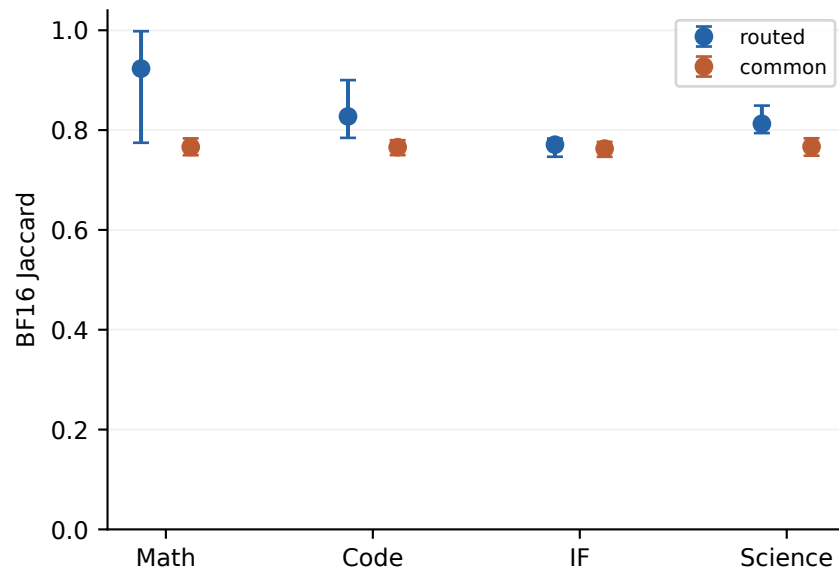

M-PG/500 only | one training seed, three diagnostic banks (42/43/44) | Bars: observed min-max, not confidence intervals | Shared teacher pairs are dependent

F5a (partial) Routed teacher overlap

F5c Overlap with zero-gradient step

F6b/c (partial) Teacher JS vs support distance
